

VISION COATINGS NEW ULTRAWRAP Lamination Technology

Vision Coatings is pleased to introduce quality “Lamination”, as part of our high-end colour offerings.

The Vision Group is a customer-centric, technology-driven group of companies focused on the building products industry. Our founder and Chairman, Vic De Zen, has spent over 40 years in the manufacturing sector and is a recognized leader in the building products industry.

Vision’s products include a wide range of applications, including; columns, decking, fencing, railings, steel doors and frames, basement windows, custom profiles, and transportation.

As part of the Vision Group of Companies, Vision Coatings is the North American leader in high-end finishing. Since 2018 Vision Coatings has provided our manufacturers with the professional service and quality it has become accustomed to.

“SUPERIOR LAMINATION FOR WINDOWS, DOORS, AND BUILDING PRODUCTS”

Elevate your living spaces with our innovative UltraWrap lamination technology for window and door profiles, PVC shiplap, fencing, railing and many interior or exterior applications.

Vision Coatings cutting-edge technology ensures vibrant, long-lasting colours that resist fading and wear with exceptional film warranties.

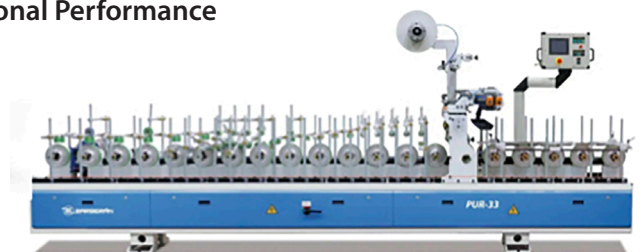

With a multitude of solid colours and woodgrains, your customers can add that touch of elegance and durability to windows and doors, along with other application options. You can now offer a blend of form and function with Vision Coatings UltraWrap.

Benefits of UltraWrap
